

JobGenie

Connecting Businesses and Workers through a Personalised Network of Trusted Professionals to solve short term staffing issues & schedule gaps.

The Problem

In labour-based industries such as **cleaning, nursing, disability care, trades, hospitality, and retail**, last-minute staff absences or shortages can have a major operational impact. When a worker calls in sick or becomes unavailable, businesses are left scrambling to fill the gap often with little notice and no centralised system to manage replacements.

This creates a ripple effect across the business:

- Jobs may have to be delayed, cancelled, or rushed.
- The remaining team is forced to work short-staffed, reducing quality and increasing stress.
- Client satisfaction suffers due to slower service or missed appointments.
- Managers spend valuable time contacting multiple people individually, often through group chats, hoping to find someone available and reliable.

Currently, most businesses rely on **informal networks** - messaging past employees, trusted contractors, or staff from alternate shifts to fill these gaps. This process is **time-consuming, inconsistent, and unscalable**.

When reaching out to new workers, additional time is lost screening for reliability, skill level, and trustworthiness, as each industry has its own standards and expectations. Despite the different skill requirements, **the underlying problem is universal across all labour-based sectors: the lack of an efficient, trustworthy, and real-time system for connecting available, qualified workers with businesses that need immediate support.**

Solution – JobGenie

JobGenie at the intersection of two large and growing trends: increasing workforce casualisation and businesses seeking more flexible, trustworthy staffing solutions

For Businesses

JobGenie takes the stress out of last-minute staff shortages.

- When employees call in sick or workloads spike unexpectedly, businesses often face cancellations, lost productivity, and dissatisfied clients. **JobGenie bridges this gap by offering an on-demand network of verified, available workers ready to fill shifts and keep operations running smoothly.**
- Through a **network-driven model**, JobGenie fosters a sense of community and loyalty among businesses and workers, while reducing the uncertainty and risk that typically come with hiring new or temporary staff. By combining **verified profiles, transparent ratings, and direct in-app communication**, the platform empowers companies to build their own **trusted ecosystem of reliable professionals** who can step in at short notice — whether for a single day, a specific job, or to support during peak demand periods.

In essence, JobGenie provides **speed, trust, and simplicity** in staffing, helping businesses stay operational and workers stay connected.

Solution – JobGenie

For Workers

- For **job seekers, casual workers, contractors, and sole traders**, JobGenie is the gateway to flexible, on-demand work opportunities. Whether someone is looking to **earn extra income, build professional relationships, showcase their skills to multiple employers, or fill a last-minute cancellation**, JobGenie provides fast and simple access to available shifts across industries such as cleaning, hospitality, trades, and retail.
- For newcomers to the workforce or those entering a new industry, JobGenie offers a **valuable pathway to build connections, gain experience, and grow a trusted reputation** among local businesses.

Ultimately, JobGenie **bridges the gap between businesses seeking dependable labour and workers seeking consistent opportunities**, offering an efficient, transparent, and community-driven alternative to traditional recruitment and labour-hire systems.

How it works

JobGenie connects businesses and workers through a simple, fast, and transparent process designed to save time and reduce stress.

For Businesses

- **Post a Job** – Enter job details such as location, time, role, and skill requirements.
- **Get Instant Matches** – The system instantly connects you with available, verified workers who meet your criteria.
- **Review & Select** – Browse worker profiles, ratings, and experience before confirming your choice.
- **Job Accepted** – The business will accept the worker and be directed to connect with them for any further details
- **Rate & Build Your Network** – Leave feedback and add the worker to your trusted network for future shifts.

For Workers

- **Create a Profile** – Add your skills, industry experience, availability, and verification details.
- **Browse Available Jobs** – View nearby shifts or day work opportunities in real time.
- **Apply or Accept Instantly** – Accept a shift that suits your schedule and location.
- **Work & Get Paid** – Complete the job, payment separate
- **Build Your Reputation** – Earn ratings and grow your network of regular businesses.

The Result

JobGenie simplifies the entire short-term staffing process — replacing frantic last-minute phone calls with an organised, trustworthy, and instant connection between businesses and workers. Over time, both sides build a **personalised network of trusted professionals**, creating reliability, consistency, and a stronger sense of community across industries.

Target Market

Businesses (B2B Users)

JobGenie serves businesses in **labour-reliant industries** where operations depend heavily on day-to-day staffing and reliability. These industries face frequent last-minute shortages, high turnover, and scheduling gaps that disrupt productivity.

Primary industries include:

- **Cleaning & Facilities** – commercial and domestic cleaning companies, end-of-lease or builders' cleans.
- **Healthcare & Community Support** - Qualified and vetted professionals for: Nursing and hospital shifts, Aged care facilities and community homes, Disability support workers and personal carers, Allied health assistants and home support aides
- **Trades & Labour** – construction, landscaping, painting, handyman, warehouse work.
- **Hospitality & Events** – cafes, catering, restaurants, event setups, festivals.
- **Retail & Customer Service** – retail stores, pop-up stalls, showrooms.
- **Logistics & Warehousing** – removalists, delivery drivers, warehouse packers.

Business pain points:

- Staff calling in sick or cancelling last minute.
- Increased demand during busy periods (weekends, holidays, events).
- Time wasted messaging multiple people to find a replacement.
- Risk of hiring unreliable or unverified workers.
- Decline in service quality or reputation due to understaffing.

Why they use JobGenie:

- Instant access to pre-verified, rated workers.
- Reduces stress and downtime.
- Keeps operations running smoothly and clients happy.
- Builds a dependable pool of fill-in staff for future needs.

Target Market

Workers (B2C Users)

JobGenie also targets **flexible, independent, or casual workers** who want quick access to short-term or one-day job opportunities.

Who they are:

- Contractors, ABN holders, casual workers and freelancers.
- Students or part-timers seeking extra income.
- Sole traders looking to fill schedule gaps or grow their client base.
- New migrants or job seekers wanting to gain local experience and network.

Worker motivations:

- Flexible hours and fast income.
- Build trust and reputation with local businesses.
- Network within their industry.
- Avoid the uncertainty of traditional labour hire agencies.
- Fill their week with last minute call ins.

JobGenie's total addressable market includes **thousands of small to medium-sized businesses** across Australia that rely on casual or contract labour, and **hundreds of thousands of workers** seeking flexible opportunities.

This two-sided marketplace model scales easily across regions and industries, tapping into the growing demand for **on-demand, verified, short-term staffing solutions**.

Welcome to JobGenie

Instant Pay Flow — JobGenie Service Fee Model

JobGenie facilitates instant payments to workers upon job completion, while billing the business afterward with an added service fee. This ensures speed, trust, and simplicity for everyone involved.

Step 1 — Worker Completes Job

The worker logs hours at the end of their shift (e.g., **8 hours** for a full-day clean).

Submit Hours

Step 2 — Business Approves Hours

The business receives a prompt to confirm total hours worked. Once approved, JobGenie triggers instant payment to the worker.

Approve 8 Hours

Step 3 — JobGenie Pays Worker Instantly

As soon as approval is received, JobGenie pays the worker directly and immediately for the approved hours.

 Worker paid instantly — **\$320** for 8 hours at \$40/hr.

☒ Step 4 — Business Billed by JobGenie

JobGenie invoices the business for the worker's pay plus the JobGenie service fee.

- Worker Pay: **\$320** (8 hrs @ \$40/hr)
- JobGenie Service Fee: **10%** (\$32)
- **Total Invoice to Business: \$352**

[View Invoice](#)

→ Step 5 — Payment Reconciliation

The business payment is processed automatically within the agreed billing period. JobGenie retains the service fee as platform revenue, completing the transaction cycle.

- ✓ Worker paid instantly
- ✓ Business billed securely
- ✓ JobGenie earns service fee

End of Day — Log Your Hours

Once you've completed your job, log your total hours worked so your team leader or the business can approve and trigger instant payment.
